General information

Dear Partner,

The new consumables catalogue from Medisoft is now updated. Please discover this full overview of all our consumables available to you.

To assist navigation within the catalogue and to find quickly what you need, it is divided into different categories.

First, a common listing for multiple devices with its exact description, picture, reference, price, package and all Medisoft equipment which it applies.

Second, the specific consumables for each Medisoft product, provided along with the data relating to (description, picture, reference, price and package).

The Medisoft consumables are developed and selected especially for our entire range. The use of original Medisoft consumables contributes significantly to the smooth functioning and long life of your equipment.

To order, you have just to send us your request by fax or e-mail (see details below) specifying the reference of the consumable, its description and the quantity desired. Then we will send you back an order confirmation and deliver you as soon as possible.

The year 2012, the company is celebrating its 35th Anniversary celebrating the knowledge base with the unique partnership with Distributors and employees that has developed a quality and trust with the loyalty of its customers.

The strength of 35 years of experience and Medisoft is still committed to improving cardio-respiratory function of current and future generations and to remain a pioneer in the field of innovation for new methods of investigation and diagnosis.

This catalogue was designed especially for you because the satisfaction of our partners is essential for us. If you have any comment to improve this support, please let us know!

If you require any further information, do not hesitate to contact us.

The Medisoft Team
